Weight for weight, cannabis smoke has higher tar content than tobacco; therefore long-term regular heavy use is associated with an increased risk of bronchitis, lung cancer and respiratory diseases.

Children should avoid caffeine at all times! Don't forget that energy drinks and cola contain large quantities of caffeine!!

The logo features the word "Drug" in a bold, sans-serif font, with a curved line underneath it. To the right, the word "free!" is written in a cursive, script font.

Steroid use is particularly risky for young people. If used while a person is still growing steroids can cause a number of problems, including stunted growth!

During exercise, smokers:

- Are more easily exhausted
- Suffer shortness of breath
- Have reduced endurance
- Have impaired reactions
- Have poorer visual judgement

Say . . . .

“No thanks, I’m playing tomorrow”.  
Give your body a sporting chance by avoiding alcohol 24 hours before playing or training.
